Without doubt, Internet is the most useful thing in our lives. It makes our life easier. Before the Internet, people went to libraries to find books, articles, and the information about events and people. Today you don't need to go to the library because Internet is a huge library. Moreover, you can do whatever you want on the Net. You can do shopping, pay your bills online, play online games and communicate with your friends and relatives by using social networking sites.

However, the Internet has many disadvantages. It can cause an Internet addiction on people, especially kids. Children prefer staying at home and they play online games instead of going out with their real friends. So they start to put on weight and have an unhealthy life style. I think that we should be careful while using the Internet.
